Hi Albert,

What is the date of these photos, I drive this street almost weekly and this has not been this wet since the last rainfall?

Much Appreciated,

Renée

Looks like a drainage problem. Is Sanitation involved?

I will ask my staff to look into it

Adel,

I have been directed to contact you re; community concerns about street flooding and possible West Nile disease exposure due to a failed street at 4200 Edgehill Ave in leimert Park.

Below is a report from Richard Louie, Senior Civil Engineer, DPW regarding funding for this location.

The council office requests this to be a high priority issue for repair.

Upon your review please advise.

Below are photos provided by community resident Ms. Gail Molen.

Thank you for this attention and consideration.

Albert,

It was a pleasure to get to talk with you on the phone yesterday. The Bureau of Engineering (BOE) was requested in December 2019 to create a cost estimate to address the water issue near the 4200 block of Edgehill Drive. BOE was able to create a cost estimate and was able to submit a Capital Improvement Expenditure Program (CIEP) budget request to the City Administrative Officer (CAO) for consideration for the City of Los Angeles Fiscal Year 2020-2021 budget. The Bureau of Engineering is ready to begin work on this project if funds are identified/secured for the project. Currently, the CIEP budget request is with the CAO's office. Please see attachment for additional information on the budget schedule for the Fiscal Year 2020-2021 budget process. Please let me know if you have any additional questions.

Thanks,
